

RAPIDALERT

POWERED BY  **BLUEPOINT**[®]

READY-TO-DEPLOY MEDICAL RESPONSE PLATFORM

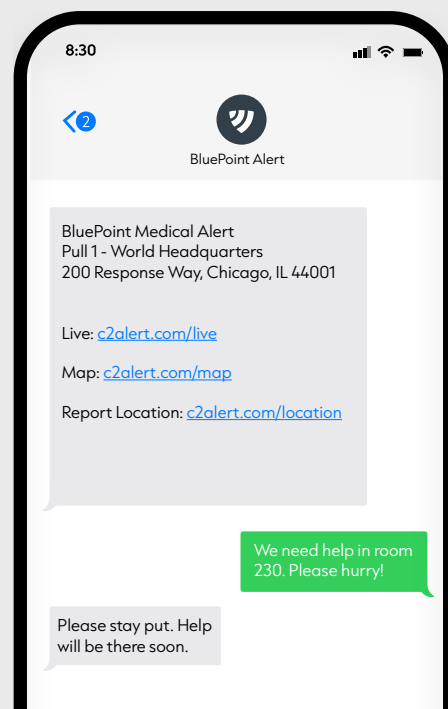

A safety-first, self-installed emergency alert system that enables employees to summon immediate, coordinated help in seconds.

- ✓ Deliver faster, more coordinated on-site response
- ✓ Accelerate notification & first responder activation
- ✓ Minimize chaos with instant, actionable alerts

A LIFE-SAVING SYSTEM

“Because of the rapid response, he was revived before permanent damage occurred, and **continues to live a happy and healthy life.**”

Across **168 acres of campus**, global agricultural leader AGCO safeguards employees from mishandled workplace medical emergencies through BluePoint Alert with an internal **response time of ~30 seconds** over nearly **10 activations within 18 months**.

Employers in critical operational environments trust **BluePoint**

When someone is in duress and time is of the essence, RapidAlert mitigates the negative consequences of 'freeze-up' that can be experienced under extreme stress. When it comes to safeguarding people, swift and accurate emergency response decisions are essential.

✓ **EARLY INTERVENTION = HIGHER SURVIVAL RATES**

- Response times **under 4-6 minutes** increase cardiac arrest survival rates by **40-60%**.
- Support within the **first 60 minutes** of a stroke reduces disability risk by **30%** and improves long-term cognitive function.
- Responses over **27** minutes nearly double fall mortality rate.

✓ **WORKPLACE PRODUCTIVITY + CONTINUITY**

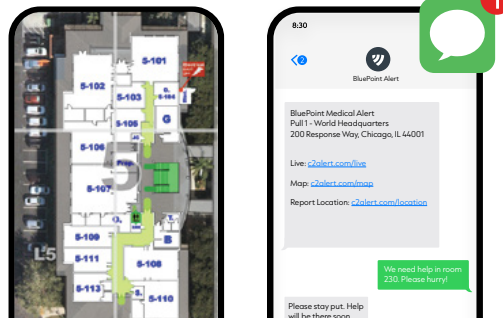

- Reducing response times by **5** minutes in industrial settings lowers lost workdays by **15-20%**.
- Strategic ambulance placement using real-time data reduces urban response times by **20-25%**.
- AI-driven EMS systems cut unplanned downtime by **40-60%**, saving organizations **30-50%** in incident resolution costs.

✓ **EMERGENCY ACTIVATION & NOTIFICATION**

✓ **INSTANT TEXT ALERTS WITH CRITICAL LIVE INTERACTION & RESOURCES**

✓ **REDUCED TIME TO RESPONSE & AID**
